

MARCH 2021 NEWSLETTER

GROWTH & IMPROVEMENT

Stambridge Group has chosen to make the best of recent situations that we have all found ourselves in. During the past few months, we committed to continuing our company's growth, and in doing so have achieved a range of qualifications, including:

ISO:9001

Quality Management System

ISO:14001

Environment Management System

ISO:45001

Occupational Health & Safety
Management System

It has been a long-term goal of ours to succeed in gaining our ISO:9001. Being the proactive and ambitious company that we are, Stambridge Group has not only met that goal, but we have also excelled ourselves... gaining the further two ISO certifications, something only very few challenge themselves with and succeed in doing.

Along-side gaining new certifications, we have also received very positive feedback in our ACS Requalification, with an increase on our previous score, proving that with a little hard work, determination and a thirst for success, we really can achieve anything.

STAMBRIDGE
GROUP

SERVICE OF THE MONTH

As we continue to introduce you to the variety of different Facilities Management services that we have available here at Stambridge Group, this month we would like to take the opportunity to provide you with more information on our gardening division.

Regular maintenance is certainly necessary for any garden to stay looking its best, thus, Stambridge Group provides a comprehensive range of gardening services.

**LAWN MOWING &
HEDGE TRIMMING**

TRIMMING & WEEDING

JET WASHING

PLANTING & RESEEDING

SPRINKLER & WATERING

**TREE REMOVAL &
LANDSCAPING**

Whether you need contract gardeners for the daily upkeep of garden areas or specialist landscape maintenance, we've got you covered.

We provide a full range of effective Facilities Management gardening services to get garden spaces looking their best.

Stambridge Group has a highly professional team at the ready, fully trained to meet all of your gardening needs. We offer a unique service so that we can cater to a variety of specific job requirements.

Contract and One-Off Garden Maintenance Services are also available.

EMPLOYEE OF THE MONTH

TONY BLYTHE & JAMES HALE

Both James and Tony work in one of our Further Education contracts at Colchester University Campus, as part of our University of Essex contract. Their main duties consist of Covid-19 compliance and student well-being in and around the study areas, across campus.

James and Tony have shone in recent months, with their ability to be both friendly and assertive in implementing Covid-19 regulations, as requested by the University.

They have built many respected relationships with students and members of staff on-site, coming to the attention of Head of Security Thomas Brown, with positive feedback being presented to the site's dedicated Operations Manager.

Not only have James and Tony fulfilled their roles on-site to a high standard, they have also developed and built upon their customer service capabilities, gained from a plethora of experience within the Licenced Security Industry.

Well done to both of you and thank you for your ongoing efforts!

THANK YOU JAMES & TONY

STAMBRIDGE TRAINING

The SIA has recently changed regulations for the Frontline SIA Licence. From 1st April 2021, they will introduce updated qualifications for all sectors except Close Protection and Vehicle Immobilisation.

The new regulations mean you must have a First Aid qualification before taking Door Supervisor or Security Guard Licence training.

Starting on the 1st October 2021, the SIA will introduce newly updated Close Protection Qualifications.

From then on out, you must have one of the new qualifications or take top-up training before you can apply for the Door Supervisor and Security Guard Licences.

These changes include renewals.

This month we have succeeded in holding an SIA Door Supervisor Course at our Head Office Training Centre, with our course framework being extended to come in line with the new changes implemented by the SIA, we keep up-to-date with all changes and requirements so you don't have to!

Upcoming Training Courses In April

SIA DOOR SUPERVISOR

(due to high level of demand on our March course)

POSITIVE FEEDBACK

I wanted to congratulate you on the great team and staff you have on Essex Campus; specifically, James and Tony, who have been very friendly but also firm and consistent in keeping the rules and regulations at the university to the best standards, keeping all staff and students safe from Covid-19, and also, keeping the general security on site.

I felt like these two needed some sort of recognition for their hard work and friendly attitude in these hard times.
Thank you,

Yours faithfully,

THOMAS BROWN BA HONS
HEAD OF SECURITY

University of Essex

EMPLOYEE SPOTLIGHT

JAMIE SPIERS
OPERATIONS DIRECTOR

Jamie Spiers is the Group Operations Director here at Stambridge. He has stood solidly beside the Group MD for over 10 years. Jamie's key qualities differ slightly from those of Patrick's, Jamie is passionate, determined and focused.

His 'hands-on' attitude means he likes to get down and dirty with it! Give him a megaphone and a crowd and he is in his happy place. Whilst his experience does span across the entire business, he will openly admit that the majority of his success he has found is at the numerous indoor/outdoor events and festivals throughout the year.

He is an industry professional and his 'can-do' attitude is infectious. You'll find yourself dancing in the middle of a muddy field with him in no time. More recently he has turned his hand to delivering expert SIA training on behalf of Stambridge Group, where his classroom manner brings a modern approach to learning and best practice.

Take a bow young man.
